SUMMARY

CEH-certified Cyber Security Engineer specializing in Database Activity Monitoring (DAM) with Imperva DSF for NSE and Bank of India, and incident response for ICICI Securities. Skilled in security and audit policies, data classification, Zero Trust, VAPT and network security.

EDUCATION

B.Tech, Information Technology (Minor: Cybersecurity & Digital Forensics) GPA: 7.35 / 10
Ramrao Adik Institute of Technology (RAIT), D. Y. Patil University Navi Mumbai, India

EXPERIENCE

Meta Infotech Limited, Cyber Security Engineer | Thane, India Aug 2025 – Present

- Deliver data security engagements for BFSI and capital-markets clients, specializing in Database Activity Monitoring (DAM) with Imperva DSF.
- Deploy and operate DAM infrastructure, create security and audit policies, run data discovery and classification, and support incident response.

Meta Infotech Limited, Technical Associate Trainee | Thane, India Apr 2025 – Aug 2025

- Trained in Zero Trust (ZTNA, SWG, SASE) and SD-WAN; earned Zscaler EDU-101/102 and Aryaka ACP.

DIF Foundation, Network Security Intern | Navi Mumbai, India Jan 2025 – Apr 2025

- Monitored and configured firewalls, IDS/IPS and VPNs to strengthen network perimeter security.
- Built a hybrid signature- and ML-based IDS for EV CAN bus networks to detect spoofing, injection and DoS.

TECHNICAL SKILLS

Security Tools:	Metasploit, Burp Suite, Nmap, Nessus, Acunetix, Wireshark, Snort, Kali Linux
Data Security:	Imperva DSF (Hub, Gateway), DAM, DRA, Data Classification, Audit & Security Policies
Network & Cloud:	Zscaler (ZIA, ZPA), Palo Alto, Zero Trust, SASE, SD-WAN, Firewalls, IDS/IPS, VPN, EDR
Security Domains:	VAPT, OWASP Top 10, SOC, Incident Response, Malware Analysis, Digital Forensics, GRC

PROJECTS

DAM Deployment – Imperva DSF & DRA (National Stock Exchange) Apr 2026 – Present

- Configured infrastructure for Database Activity Monitoring (DAM) and installed Imperva DSF Hub and Gateways.
- Created and configured security policies and audit policies to monitor database activity and enforce compliance.
- Implemented and operate Imperva Data Risk Analytics (DRA) for detecting risky database behavior.

Database Discovery & Classification (Bank of India) Mar 2026 – Apr 2026

- Performed database discovery and classification (DBSCD) scans on database servers to identify sensitive data.

Incident Response (ICICI Securities)

- Handled security incident response, investigating alerts and supporting containment and remediation of incidents.

Routeer – OpenWrt Travel Router Aug 2023 – Nov 2023

- Configured an OpenWrt portable router with VPN, ad-blocking and bandwidth control for secure connectivity.

CERTIFICATIONS

- Certified Ethical Hacker (CEH), EC-Council (2025)
- Certified AppSec Practitioner (CAP) (2025)
- Imperva DSF – Data Risk Analytics (DRA) (2026)
- Administering Imperva Security Infra. (2026)
- Imperva Attack Analytics Overview (2026)
- Palo Alto Cybersecurity Foundation (2025)
- Zscaler EDU-102: Fundamentals of Cybersecurity
- Zscaler EDU-101: Networking for Cyber Professionals
- Aryaka Certified Professional (ACP-2024)
- EC-Council Ethical Hacking Essentials (2025)
- KPMG CTF Hackathon (2024)
- Google Technical Support Fundamentals (2023)

PATENTS & LEADERSHIP

- **Indian Patents (Pending):** Secured RFID Attendance System; Smart Glasses for Live Translation
- **Creative Chief, RAIT ACM Student Chapter** – Led design strategy for brand identity and member engagement.
